

Your  
Family  
Heirloom  
Bespoke  
Albums by

---

Document and protect family milestones to look back on fondly. Your album will be produced using fine art, archival quality to keep your most precious memories beautifully presented and protected for generations to come.

# Why are family albums so important?

## *Legacy*

Your album is produced with archival, fine art and museum-grade materials that won't yellow, fade or age like high street printing.

Your album will last for generations to come.

## *Security*

Did you know a USB only lasts 10 years? An album will never crash, outdate or fail. It's the most secure way to preserve your memories for you and your family to cherish for 100+ years. I can't recommend a 'hard copy' enough.

## *Memories*

Is there any better feeling than gathering on the sofa with old albums and photographs? They always bring up so many good times. With an album, you can be transported back to your favourite memories whenever you like.

# Engraving

---

Using a laser your text or bespoke motif is engraved in to the cover material. The process works by removing the top layer of the material to reveal the natural hues underneath. Engraving is available on most materials.

Available fonts: Bebas, Bombshell, Century, Century Gothic, Courier, Futura, Gill Sans, Helvetica, Magarella, Melinda, Montserrat, Prata, Times, Trajan and Univers.

# Cover Printing

---

Black

White

The latest digital technique in personalisation which involves printing directly on to a material in either black or white ink. Available on most materials.

Available fonts: Bebas, Bombshell, Century, Century Gothic, Courier, Futura, Gill Sans, Helvetica, Magarella, Melinda, Montserrat, Prata, Times, Trajan and Univers.

# Debossing

---

Using traditional methods, letters are pressed into the cover without ink or foil for an elegant, classic presentation that's wonderful to the touch. Blind debossing is mostly available on Contemporary Leather and Purity cover material ranges.

Available fonts: Coronation, Helvetica, Bebas & Prata in uppercase characters only.

# Foiling

---

Gold

Silver

Heat is used to transfer metallic foil to the album cover for an eye-catching enhancement. Foil debossing is available on a limited range of materials.

Available fonts: Coronation, Bebas & Prata in uppercase.

# 22 Carat Gold & Palladium Finishing

---

## 22 Carat Gold

## Palladium

There's precious little more to say - sometimes only real gold will do. 22 carat gold personalisation is available on leather & Purity covers. Palladium personalisation adds a luxurious 'silver' finish to your book. Rarer than gold, yet non-tarnishing like silver.

Available fonts: Bebas, Bombshell, Century, Century Gothic, Courier, Futura, Gill Sans, Helvetica, Magarella, Melinda, Montserrat, Prata, Times, Trajan and Univers.
